- **Frontend Technologies:** HTML5, CSS3, Angular, jQuery, React, Tailwind, Bootstrap
- **Backend Technologies:** Node.js, .NET MVC, Entity Framework Core
- **Databases:** SQL Server, MongoDB
- **Agile Methodologies**
- **Business Intelligence:** Power BI
- **Source Control:** Git, GitHub
- **Data Structures and Algorithms**
- **Object-Oriented Programming (OOP)**
- **Design Patterns**
- **Languages:** Arabic: (Mother Tongue) - English: (Intermediate).

(Postgraduate) Education

9-Month postgraduate Diploma, professional training program, Information Technology

Institute (ITI)

10/2024 - 06/2025

Track: Professional web development infused BI and CRM.

Branch: Mansoura Branch

Projects

Rafeeq Mentorship

Mentorly A web platform I developed that combines professional mentorship and interview preparation for students and job seekers.

It allows users to book 1:1 mentor session, schedule mock interviews with feedback, and receive AI-based recommendations.

Key features include role-based authentication, smart filtering, and a dynamic booking system.

My Role:

I was responsible for designing and implementing the **Admin Panel**, including managing mentors, users, session approvals, and overall platform control.

Technologies used: Angular – ASP.NET Core with RESTful APIs - SQL Server

E-Commerce & Inventory Management System

Tech Stack: Angular 19, Node.js, Express.js, MongoDB (MEAN Stack)

Built a full-featured platform with four portals (Customer, Seller, Clerk, Admin), each with distinct login and permissions (RBAC).

Implemented secure **JWT-based authentication**, with separate user collections and role-based access.

Key Features:

- **Customer Portal:** Product browsing, cart, checkout, secure payments.
- **Seller Portal:** Product management, order tracking, sales reports.
- **Clerk Portal:** Branch inventory requests and order processing.
- **Admin Portal:** User and product management, branch assignment, full system oversight.

E-Commerce Furniture Web Application

Tech Stack: HTML, CSS, JavaScript, jQuery, Bootstrap, local Storage

Award: Best Client-Side Technologies Project – ITI

Developed a responsive furniture e-commerce platform with role-based interfaces for Guests, Customers, Sellers, and Admins.

Key Features:

- **Guest:** View and search furniture products, manage cart.
- **Customer:** Purchase products, manage profiles, view order history, send feedback.
- **Seller:** Manage product listings, track sales, orders, and view analytics.
- **Admin:** Oversee user roles, manage feedback, approve products, and maintain system data.

Recognized among 8 projects for excellence in client-side development.

Examination System

Tech Stack: ASP.NET MVC, SQL Server

Developed a role-based exam management system with 3 main portals:

- **Student:** View profile, courses, grades, and exams with calendar and analysis features.
- **Instructor:** Create exams, manage courses, and track student performance.
- **Admin:** Perform CRUD operations for users, courses, departments, and manage question banks and report

Freelance Projects

Sumou is an Islamic website through it you can buy courses or book consultations.

Experience

Delta university for science and technology

Mansoura,Egypt

Lab Specialist
