SKILLS

Entity Framework	C#	JavaScript	Angular	SQL Server
Node.js	ASP.Net Core MVC	ASP.Net Core Web API	OOP	
HTML	CSS	Bootstrap	ES6	Agile
				Solid Principles
Unit Testing	SQL Server Reporting Services(SSRS)			
SQL Server Analysis Services(SSAS)				
SQL Server Integration Services(SSIS)				
Microsoft Dynamics CRM		DevOps	ADO.Net	MongoDB
JQUERY	AJAX	GIT	Github	c++
				Power BI
Typescript				

LANGUAGES

Arabic(Native)

English

EDUCATION

Bachelor's Degree in Biology Faculty of Science

Mansoura University

 2019 - 2022

 Mansoura

- Grade : Very Good (85%)

PROJECTS

E-Commerce & Inventory Management System

Tech Stack: Angular 19, Node.js, Express.js, MongoDB (MEAN Stack)

Team Project at ITI

Built a full-featured platform with four portals (Customer, Seller, Clerk, Admin), each with distinct login and permissions (RBAC).

Key Features:

- **Customer Portal:** Product browsing, cart, checkout, secure payments.
- **Seller Portal:** Product management, order tracking, sales reports.
- **Clerk Portal:** Branch inventory requests and order processing.
- **Admin Portal:** User and product management, branch assignment, full system oversight.

Implemented secure **JWT-based authentication**, with separate user collections and role-based access.

E-Commerce Furniture Web Application

Tech Stack: HTML, CSS, JavaScript, jQuery, Bootstrap, localStorage

Award: Best Client-Side Technologies Project – ITI

Developed a responsive furniture e-commerce platform with role-based interfaces for Guests, Customers, Sellers, and Admins.

Key Features:

- **Guest:** View and search furniture products, manage cart.
- **Customer:** Purchase products, manage profile, view order history, send feedback.
- **Seller:** Manage product listings, track sales and orders, view analytics.
- **Admin:** Oversee user roles, manage feedback, approve products, and maintain system data.

Recognized among 8 projects for excellence in client-side development.

PROJECTS

Examination System (Team Project)

Tech Stack: ASP.NET MVC, SQL Server

Developed a role-based exam management system with 3 main portals:

- **Student:** View profile, courses, grades, and exams with calendar and analysis features.
- **Instructor:** Create exams, manage courses, and track student performance.
- **Admin:** Perform CRUD operations for users, courses, departments, and manage question banks and reports
